Experience Summary Information**Staff Archaeologist**Cultural Resource Analysts
2001 – present**Office Support Staff**

The Louis Berger Group, Southwest Office, Phoenix, Arizona 2000 – 2001

Archaeological Field/Laboratory Technician

Various Companies 1990 – 2000

Mr. Arnold is a CRA staff archaeologist with over 17 years of archaeological experience whose primary duties include the supervision of phase I survey crews and the preparation and authoring of technical reports. Mr. Arnold has five years of experience with CRA and another 11 years with other CRM companies throughout the United States. Since 1990, Mr. Arnold has participated in field research in Arizona, Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Nevada, New Mexico, New York, Ohio, Pennsylvania, Tennessee, Virginia, and West Virginia. Most of his experience has taken place in the Ohio Valley, although he has spent about one year working in the Great Basin. During his 16 years of experience in CRM, he has worked on over 250 various archaeological field projects as well as several large laboratory projects. He has also participated in phase I and phase II archeological testing projects located on several United States Defense Department installations. Most recently, Mr. Arnold has supervised several large phase I surveys of proposed surface mining tracts in the Eastern Kentucky Coal Field Physiographic Region; cellular communication towers in Indiana and Kentucky; and surveys of proposed natural gas pipelines and well pads in the Daniel Boone National Forest.

Experience:**Phase III Experience**

- Mr. Arnold has participated in 15 phase III archaeological investigations that range from Paleolithic to Late Nineteenth Century historic sites. Additionally, he served as a crew chief on one phase III historic site.

Phase II Experience

- Mr. Arnold has participated in over 25 various phase II National Register evaluations, of which he served as a crew chief on two projects.

Phase I Experience

- Mr. Arnold has participated in over 200 phase I inventory level archaeological surveys, of which he has served as a crew chief or field supervisor for over 130 projects and as an author for over 130 projects.

Additional Training

ArcView GIS (3 university credit hrs); Adult CPR, First Aid and Blood Borne Pathogen; Open-water PADI SCUBA-certified
