

Steven D. Creasman, M.A.		Executive Vice President
Availability: Immediate Email: creasman@crai-ky.com	Specific Duties: <ul style="list-style-type: none"> • Principal Investigator • Project Management • Report Preparation • Quality Control 	Education and Training M.A., Anthropology 1981, Colorado State University, Fort Collins B.A., Anthropology 1977, Colorado State University, Fort Collins
<i>Experience Summary Information</i>		
Executive Vice President Cultural Resource Analysts, Inc. 2006-present	Vice President of Operations - Kentucky Cultural Resource Analysts, Inc. 2000 – 2006 Project Manager/Principal Investigator/Field Director 1992 - 2000	Director/Principal Investigator of Archeological Services Western Wyoming Community College 1981-1992
<p>Mr. Creasman currently serves as the Executive Vice President and for this project will serve as Contract Administrator. He has served as Project Manager, Principal Investigator, and Field Director for Cultural Resource Analysts since 1992. He is experienced in Historic and Prehistoric Archeology, and conducting phase I, II, and III level investigations. He currently serves as Project Manager of the Argosy Lawrenceburg Casino project in Dearborn County, Indiana. Argosy is a large casino development on the Ohio River consisting of docking and land based facilities that require Section 10 and 404 permits from the Louisville Army Corps of Engineers (ACOE). Mr. Creasman developed and directed the research objectives and managed and directed the efforts of a multi-discipline research team that included a large field crew (30 archeologists and 20+ laborers). His duties included coordinating on a bi-weekly basis, the archeological work with construction managers and the owner to meet expedited and dynamic construction schedules. Furthermore, as part of this project, Mr. Creasman prepared progress reports, scopes of work, and work plan modifications for ACOE and Indiana SHPO and coordinated with ACOE and Indiana SHPO to insure project compliance. The project is currently in the analysis and reporting stage.</p> <p>Mr. Creasman has served as Project Manager, Principal Investigator, or Field Director on more than 30 Phase III projects, for more than 100 Phase II National Register evaluations, and over 1000 phase one cultural resource assessments. He has assisted in the preparation of and contributed sections to Environmental Impact Statements for oil and gas related developments and has experience in the preparation of cultural resource management plans. Before joining Cultural Resource Analysts, Mr. Creasman served as Director of Archeological Services at Western Wyoming College (10 years) and was an Adjunct Professor of Anthropology at Western Wyoming College. His major research interests focus on an analysis of site structure and site formation processes.</p> <p>Mr. Creasman has been selected as a Contract Administrator for this project because of his</p> <ul style="list-style-type: none"> • experience organizing, directing, and managing projects of this scope, • proven ability to coordinate with state and federal agencies, and • familiarity with the project area, <p>The following demonstrates the skills that Mr. Creasman brings to this proposal:</p> <ul style="list-style-type: none"> • He has organized, directed, and managed a variety of small- and large-scale archeological projects in Wyoming, Colorado, Utah, Montana, North Dakota, Indiana, Kentucky and West Virginia. • Mr. Creasman has created and executed data recovery plans that encompass a variety of archeological sites and research problems. • He has coordinated archeological work with construction managers and federal and state officials on 		

numerous projects to meet expedited and dynamic schedules.

- Furthermore, Mr. Creasman has prepared work plan modifications for Federal and State agencies and coordinated with them to insure project compliance.
