---	--	--

**Mr. Potts** has a Bachelor of Arts degree in History, a Master of Arts degree in Architectural History, a Master of Fine Arts degree in Historic Preservation and a wide range of practical experience in the Cultural Resource Evaluation and Management field. This experience includes extensive survey and documentation activities, rehabilitation/restoration project management, the implementation of the Secretary of the Interior’s Standards for the Treatment of Historic Structures, and historic district ordinance development and review. Mr. Potts is particularly well versed in the Section 106 Review Process (NHPA) and has worked extensively with agencies such as the Federal Highway Administration, Kentucky Transportation Cabinet, US Army Corps of Engineers, Housing and Urban Development, Federal Communications Commission and others to facilitate their compliance with state and federal historic preservation regulations. He has also been a guest lecturer at the University of Kentucky, College of Design (Graduate Program in Historic Preservation) for classes in Vernacular Architecture, Historic Preservation Legislation/Regulatory Compliance, Historic Documentation and a speaker on Section 106 Review at various agency training seminars.

Mr. Potts meets the qualifications established by the Secretary of the Interior for professionalism in History and Architectural History (Federal Register, Vol. 48, No. 190).

**Experience & Expertise:**

- Expertise in Section 106 Review and implementing the procedural requirements outlined in 36CFR Part 800 of the National Historic Preservation Act.
- Extensive background in Area of Potential Effect (APE) determinations, identification and evaluation of historic resources, determinations of effect from project activities, and creative strategies for resolving adverse impacts to historic resources. Has the ability to carry out the consulting party process and properly coordinate with reviewing agencies.
